brandbun

A little home for everything
your brand is.

VISUAL BRAND BOOK / FIRST EDITION

A quiet identity with a little ink in it.

THE FEELING

Less to manage. More to make.

brandbun is a simple place to create, collect, and share a brand guide. It should feel personal, useful, and easy to return to.

Quiet

Let the brand assets speak. Keep the interface almost invisible.

Human

A small tool made by a person. Warm words, honest promises.

Tactile

Soft surfaces, generous space, and details that feel considered.

One guiding question

Does this help someone create, find, save, or share their brand?

PRIMARY LOGO

The ink bun.

A rounded bun, two diagonal cuts, and an organic ink-pool base. One connected silhouette. No separate drop.

APPROVED SILHOUETTE

Use the supplied artwork. Do not redraw the cuts or add extra drips. The full mark should read clearly at a glance.

MARK + NAME

One mark. Two useful signatures.

STACKED / GENEROUS SPACES

brandbun

HORIZONTAL / HEADERS AND FOOTERS

The name is always lowercase: brandbun. Set it in a bold system sans serif with close, natural spacing. Keep the mark and wordmark separate enough to breathe.

GIVE IT ROOM

Small mark. Plenty of air.

The mark should feel placed, never squeezed into the leftover space.

MINIMUM CLEAR SPACE = 1/4 MARK HEIGHT

DIGITAL MINIMUM

32 px wide

Use the mark alone at small sizes. Test the two cuts on the actual screen.

USEFUL SIZES

32 / 48 / 64 / 96 px

For print, start at 10 mm wide. Favicon exports can be optically enlarged inside their canvas.

Do not stretch, rotate, outline, add a shadow, add a new drop, or squeeze the name into the mark.

Ink on paper.

Choose the version with the clearest silhouette. No effects needed.

PRESENTING A GUIDE

Let the work lead.

A brand with a point of view.

Begin with the identity. Follow with logo, colour, typography, and useful assets. Give each piece room to be seen.

KEEP THE PLATFORM QUIETER THAN THE BRAND INSIDE IT.

A little intention. Everywhere.

01 Use the approved mark.

Preserve the bun, both cuts, and the connected ink-pool base.

02 Keep the frame neutral.

Warm paper, near-black type, white surfaces, and generous space.

03 Make it clear before adding more.

A useful action, honest copy, and a calm path through the product.
